**STATEMENT OF OBJECTS AND REASONS**

A large number of witchcraft practices currently taking place throughout the country causing significant harm and exploitation of people especially in vulnerable sections of society. Practices such as Black Magic, Spells, Sorcery, Wizardry and other Sifli Amliyaat which are offensive to human dignity and life are widely prevalent these days, and also result in severe financial exploitation and mental agony for victims. Such practices have no place in a civilised society governed by the rule of law.

Security of person and right to life with dignity is guaranteed by the Constitution of Pakistan under Article 9 and 14 respectively. The wide existence of such practices directly infringes such right. With several increasing incidents of this nature coming in to light, it is imperative that criminalisation of such practices be specified along with spreading awareness about the dangerous and extremely serious consequences of such practices.

The Bill strives to make the promotion, propagation or performance of witchcraft practices a criminal offence, which cause grave physical or mental harm to citizens of Pakistan, financial or sexual exploitation, or offend their basic human dignity, with a promise to cure or provide a benefit or with a threat of adverse consequences, by invoking purported supernatural powers. Stringent punishment to those guilty of such offences will ensure effective deterrence thereby preventing the recurrence of such practices, gradually leading to their eradication.

The said bill seeks to achieve the aforementioned objectives.
