#### **STATEMENT OF OBJECTS AND REASONS**

Pakistan is facing the menace of terrorism since the last many years which has claimed thousands of innocent lives. Most of the terrorist acts have targeted public places including markets, restaurants, hotels, mosques and educational institutions. Unfortunately we have no proper surveillance mechanism through which the terrorists and their facilitators can be traced out. The amendment has been proposed so that to make it binding on the people concerned to install CCTV Cameras in their places of business and other activities so that proper surveillance may be made of the place. This amendment will ensure the proper surveillance of all public places and will help in tracing out the terrorists, their facilitators and the suspected persons.

The Bill has been designed to achieve the aforesaid objectives.
