STATEMENT OF OBJECTS AND REASONS

The Islamabad Wildlife (Protection, Preservation, Conservation and Management) Ordinance (LXX of 1979) was promulgated to maintain, protect and preserve diverse wildlife species. However, it has proved to be a weak law, which provides minimal powers to the Islamabad Wildlife Management Board (IWMB) and making it stagnant, which resulted in the deterioration of the plight of animals, birds, mammals, sea animals, reptiles etc. that exists in the Islamabad Capital Territory. In this backdrop, a need has been felt to develop a comprehensive framework for protection of nature, biodiversity and wildlife in the federal capital. It introduced the concept of nature (as opposed to only wildlife) which was all encompassing and in line with emerging best practices in the world for protection of biodiversity. Furthermore, the said Ordinance does not provide a mechanism for counting wild species in the Islamabad Capital Territory and, due to the absence of the record, such precious creatures are becoming distinct, and there is a need to preserve and protect them, as they are important for provision of the healthy environment and the survival of human life. Hence, in the light of the afore-said, the said bill has been brought.

2. This bill is aimed to achieve the above-said objective.
