*Will the Minister for National Health Services, Regulations and Coordination be pleased to state the measures being taken by the Government for preventing monkey pox virus in Islamabad Capital Territory?*

**Mr. Abdul Qadir Patel:** The Federal Ministry of National Health Services, Regulations and Coordination along with NCOC, NIH, vigilantly monitoring the situation while keeping all the relevant stakeholders on board for ensuring preparedness, timely response, and containment of Monkey pox cases in Pakistan. In this regards, following measures have been taken by the Ministry in Islamabad Capital Territory:

- NIH with Ministry of NHR&C is constantly in liaison with Border Health Services (BHS) and district health authorities (DHO & CDA) to ensure surveillance through laboratory diagnostics, contact tracing, rapid identification of suspected cases, and to provide care and isolate cases to prevent transmission.
- Established close liaison with IHR Regional Office EMRO and all concerned countries.
- NIH/MNHSRC developed and disseminated Mpox guidelines, for airports and hospitals.
- Multiple inter-ministerial and inter-sectoral meetings conducted to take all stakeholders onboard for enhance coordination and to prepare for preparedness response.
- NIH issued Advisory on Mpox in 2022.
- NIH has conducted capacity building workshops among health care providers and laboratory personnel for early detection, confirmation and management of Mpox in ICT.
- Activated screening of passengers on all international airports in coordination with Border Health Services.

- Mechanism and facilities for quarantine and isolation of suspected travelers has been established.
- NIH has initiated free of cost testing for Mpox suspected cases.
- Streamlined mechanism for sample collection and testing at NIH and selected provincial public health labs.
- Developed information, education & communication (IEC) material for general public.
- The Seasonal Awareness & Alert Letter (SAAL) and Advisory on Prevention and Control of Mpox has been widely disseminated and made available at NIH website: [www.nih.org.pk](http://www.nih.org.pk).

*Will the Minister for Federal Education, Professional Training, National Heritage and Culture be pleased to state whether it is a fact that future of the Professors in Public Sector Universities is at risk due to funds revision policy issued by HEC, if so, steps taken by the Government to protect their due interest?*

**Rana Tanveer Hussain:**

- (i) The Federal government grant is distributed among all the federally funded universities in accordance with provisions of the HEC funding policy approved by the Commission in 2009 with no revisions so far.
- (ii) Besides the annual recurring grant, HEC also provides its partial funding contribution to universities against the faculty appointed under Tenure Track System (TTS - a market-competitive structure for faculty) on top of the BPS salary. As per policy, which is applicable across the country, the HEC contribution to salary of each TTS faculty member policy is calculated at a volume over and above the BPS salary of the corresponding grade prescribed by the respective

Governments (Federal and Provincial). The said revision has been made to standardize the HEC's contribution in TTS funds across country and to eliminate the variance in BPS salary of among the universities driven from (i) variance in BPS of the Federal and provincial Governments, and/or (ii) additional allowances granted beyond Government's BPS by the universities. However, this standardization / revision has no adverse effects on the faculty members.

- (iii) The higher education sector, during the last five years, has witnessed tremendous growth in terms of establishment of new universities / HEIs in the federal and provinces, increase in students' enrolment and appointment of the new faculty and staff. Also, considerable increase in inflation and 100% raises in the salaries and pension during this period have increased expenditure side of the universities/HEIs at unprecedented level.
- (iv) Contrary to the unprecedented increase in expenditure side, federal government's grant to universities is stagnant since 2017-18 at the level of Rs.65.00 billion, where except for Govt. of Sindh no provincial government is providing recurring grant to their universities.
- (v) It is important to highlight that universities are autonomous bodies and governed through their statutory authorities (Finance & Planning Committee, Syndicate/BoG, and Senate). The salary related matters of universities' employees (faculty and staff) are internally administered in accordance with approved prescribed rules/regulations of the universities and their budgetary provisions.
- (vi) Nonetheless, funding (HEC share) against the existing faculty members for (i) monthly pay (ii) annual increment (iii) gratuity, and (iv) impact on promotion, is duly intact. There is no risk to the future of faculty members. Moreover, the rights [interests] of faculty members (**Employees**) is an internal administrative matter of the universities (**Employers**).

*Will the Minister for National Health Services Regulations and Coordination be pleased to state:*

- (a) the number of MRI machines available in PIMS, Islamabad indicating also the year of purchase and functional status of each of those machines; and*
- (b) whether any funds have been allocated for purchase of new MRI machines for the said hospital during the fiscal year 2023-24, if so, the details thereof?*

**Mr. Abdul Qadir Patel:** (a) As per Sr. No. iii of the Decisions / Conclusion of approved PSDP minutes review meeting 2022-23, held on 19th June, 2023, chaired by the Secretary Ministry of NHSR&C **“Executive Director, PIMS shall make concrete efforts to ensure successful installation, Commissioning / Inspection of the MRI by the 14th August, 2023 without further delays, MRI will be inaugurated on 6th September, 2023”** copy of minutes enclosed at **Annex-A**.

(b) The project is not reflected in PSDP 2023-24, no funds have been allocated for purchase of MRI machine during the current financial year 2023-24. However, this Institute has requested for allocation of additional funds amounting to Rs. 55.725 million to meet the shortfall occurred due to foreign exchange fluctuation and imposition of GST.
