

(344th Session)

SENATE SECRETARIAT

“QUESTIONS FOR ORAL ANSWERS AND THEIR REPLIES”

to be asked at a sitting of the Senate to be held on

Thursday, the 12th December, 2024

DEFERRED QUESTIONS

[Question Nos. 14, 17, 18, 19, 32, 38, 39, 114, 115, 116 and 127]
were deferred on 13th September, 2024 (342nd Session)

(Def.) *Question No. 14 **Senator Agha Shahzaib Durrani:**
(Notice Received on 8/07/2024 at 3:48 PM) QID: 42173

Will the Minister for Energy (Power Division) be pleased to state:

- (a) *the measures taken/ being taken by the Government to reduce circular debt in Power Sector indicating also the mechanism devised to ensure implementation of the same ; and*
- (b) *the estimated financial impact of the said measures?*

Sardar Awais Ahmad Khan Leghari: (a) Power Division has envisaged following measures:

1. To reduce the stock of Circular Debt by paying off the arrears of power producers.
2. The gap in consumer reference rate and projected cost of supply power will be mitigated through timely tariff increased.
3. Committed subsidies have been budgeted properly and will be released in timely manner.

(b) During the last financial year, Circular Debt increased by Rs. 83b1n. Due to the measures indicated above the total financing impact

i.e. increase in Circular Debt will be less than that incurred last year (Annex-I).

Annex-I

This is with reference to the Question No. 35 raised by Senator Agha Shahzaib Durrani regarding measures taken by the Government to reduce power sector circular debt along with estimated financial impact.

It is delineated that the Government has been continuously working to address the flow of the circular debt (CD) through effective efficiency improvement measures envisaged in the Circular Debt Management Plan (CDMP). The CDMP intends to reduce the flow of CD to its minimum possible level through timely tariff increases, improvement in losses, contractual reinforcement and fiscal support. As a result of the development, implementation and monitoring of the CDMP, the CD flow was controlled at Rs. 130 bln for FY-21, negative Rs. (27) bln for FY-22, Rs. 57 bln for FY-23 and Rs. 83 bln for FY-24. Below is the comparison of reasons behind the CD flow for last 5 years wherein improvement can be observed in the heads unbudgeted subsidies, pending generation cost and non-payment by K-Electric.

(Def.) *Question No. 17 **Senator Kamran Murtaza:**
(Notice Received on 9/07/2024 at 1:56 PM) QID: 42180

Will the Minister for Energy (Power Division) be pleased to state:

(a) *the names of independent power producers (IPPs) and generation companies (GENCOs) which have been issued licenses by (NEPRA) for electricity generation in the country so far indicating also the date of issuance license, period of*

license/ agreement and date of expiry of the license in each case;

- (b) whether it is a fact that the NEPRA has renewed licenses of some IPPs and GENCOs during the last two years, if so, the details thereof indicating also the period of extension in each case; and*
- (c) whether the Government has made any modifications in the terms of agreements during the said renewal process, if so, the details thereof separately in each case?*

Sardar Awais Ahmad Khan Leghari: (a) A list of IPPs and GENCOs which have been issued generation licenses by NEPRA (along with the date of issuance and expiry date) is at **(Annex-I)**.

(b) During the last two years, NEPRA has granted extensions in the term of Licenses of two IPPs namely, Kot Addu Power Company Limited (KAPCO) and Altern Energy Limited (AEL).

In the case of KAPCO, the term of the license was extended for three years (from September 21, 2021, to September 21, 2024) against the request of KAPCO for an extension of 10 (ten years). While deciding the case, the Authority deliberated the issue at length with stakeholders and based on the recommendations of important relevant stakeholders including WAPDA, MEPCO and NTDC regarding the significance of the operation of KAPCO to deal with certain technical constraints of the system. The Authority also took into consideration the arbitration proceedings in the ICC and subsequent extension in the PPA of KAPCO by the Federal Govt. Accordingly, the Authority extended the term of license for three years and directed NTDC and MEPCO to resolve the referred technical constraints within three (03) years as such constraints are resulting in the operation of KAPCO in violation of the Economic Merit Order.

AEL it is clarified that the term of the license was extended for about ten years (i.e. from September 21, 2021, to June 05, 2031) to make the term of the generation license consistent with the term of the binding agreements {i.e. Power Purchase Agreement (PPA) and Implementation Agreement (IA)}.

(c) It is apprized that there is no such project for which any modification has been made in terms of agreements during last two (2) years.

(Def.) *Question No. 18 **Senator Saifullah Abro:**
(Notice Received on 10/07/2024 at 4:03 PM) QID: 39983

Will the Minister for Energy (Power Division) be pleased to state:

- (a) *whether it is a fact that contract / agreement with K-Electric was expired in 2015 and has not been renewed till date, if so, reasons thereof; and*
- (b) *the existing share of Federal Government in K-Electric as per the said agreement?*

Sardar Awais Ahmad Khan Leghari: (a) • A new agreement, “Power Purchase Agency Agreement” (PPAA) has been executed between CPPA-G and K-Electric on 5th January, 2024 (taking effect from 1st January 2024). The previous period from 25th January 2015 to 31st December 2023 has been regularized through clause 2.2 of the PPAA.

(b) • As per said agreements existing share of Federal Government in K-Electric is 24.36%.

(Def.) *Question No. 19 **Senator Saifullah Abro:**
(Notice Received on 10/07/2024 at 4:03 PM) QID: 39984

Will the Minister for Energy (Power Division) be pleased to state with reference to Power Division’s letter No. GPI-E/01/2022-vol-I dated 31st March, 2022 regarding Inquiry Report of damages in Block 14 Guddu Power Plant:

- (a) *the details of action taken against the ex-Chief Executive Officer of Genco holding Company;*
- (b) *the details of action taken against the Board of Directors Genco Holding Company CPGLC Genco-II; and*
- (c) *the detail of recovery made from M/s GE on account of the said incident?*

Sardar Awais Ahmad Khan Leghari: (a) In order to inquire into the matter, the BOD of GENCOs Holding Company Ltd. (GHCL) constituted a Special Committee (**Annex-I**).

According to the Committee's report, management of GHCL was not held responsible. The Committee concluded that "neither it's the purview nor the responsibility of the GHCL Management to directly supervise or monitor day-to-day operations and maintenance activities of the Power Plants operating under different GENCOs"

(b) GHCL informed that the BoDs are mainly responsible for shaping the vision, aligning the business with the organization's objectives and making high-level policy and strategic decisions based on industry and sectoral trends. It is responsibility of the plant management of the concerned GENCO to take care of operational matters, such as operating the plants, shutting down the machines for major maintenance activities as and when required, etc.

In view of the above GHCL appraised that the Board cannot be held responsible for the incident.

(c) Gas Turbine-14 of Guddu Power Plant was damaged on 12-02-2021 and restarted / re-synchronized after necessary maintenance on 24-06-2022.

The special committee of GHCL BoD submitted its findings after going through and analysing all reports. The special committee did not hold M/S GE responsible for the damage.

In addition, Central Power Generation Company Ltd. (CPGCL) also obtained legal opinions from two legal counsels in this matter. As per legal opinion of M/S Rizwan Faiz Associates, it does not appear to be a strong case against M/S GE for breach of the Contract Service Agreement (CSA) or professional negligence whereas as per legal opinion of M/S RIAA Barker Gillette, "CPGCL does not have solid grounds for recovery from M/S GE".

In view of the aforesaid, GHCL does not feel that M/S GE can be held responsible for the incident.

(Def.) *Question No. 32 **Senator Dr. Zarqa Suharwardy Taimur:**
(Notice Received on 30/07/2024 at 2:15 PM) QID: 42251

Will the Minister for Energy (Power Division) be pleased to state the shortfall of electricity in the country at present indicating also the steps taken/being taken by the Government to overcome the same?

Sardar Awais Ahmad Khan Leghari: • At present, the available generation capacity is sufficient to meet the country's electricity demand and no-load shedding is being carried out in the country on account of generation shortfall.

• However, Distribution Companies (DISCOs) are carrying out load management in their areas on the basis of high Aggregate Technical and Commercial (AT&C) losses on feeders, as per the following category-wise schedule:

CATEGORY	I	II	III	IV	V	VI	VII
AT&C Losses	Upto 10%	10-20%	20-30%	30-40%	40-60%	60-80%	80.1-100%
Load Management (Hrs)	Zero	02 Hrs	02 Hrs	04 Hrs	06 Hrs	08 Hrs	12 Hrs

(Sometimes feeders become faulty due to overloading, short-circuits or other faults because of which consumers have to face un-announced power outages till rectification of fault/ restoration of supply)

• To address the issue of electricity theft, an anti-theft campaign has been in progress within DISCOs, since September 2023, with the help of Provincial Governments. To optimize the campaign's effectiveness and successful implementation, anti-theft units have been established within DISCOs and progress is being monitored through the Ministry of Energy (Power Division) on daily basis.

• Moreover, following measures are being taken in DISCOs to reduce AT&C losses by theft control, which will result in reduced load management / shedding:

- o Replacement of old/sluggish and defective meters;

- o Installation of Advanced Metering Infrastructure (AMI) meters for commercial, industrial and tube well connections;
- o Installation of ABC cable for commercial, industrial and tube wells connection for minimizing theft of electricity.
- o Mobile Meter Reading (MMR) is being implemented in DISCOs to ascertain the accurate meter reading for consumers' satisfaction to pay the genuine bills.
- o Performance Contracts are being signed with Board of Directors (BODs) and management of DISCOs to ensure continuous improvement through achievement of the agreed targets of Transmission and Distribution (T&D) losses besides other parameters in this contract.

(Def.) *Question No. 38 **Senator Mohsin Aziz:**

(Notice Received on 5/08/2024 at 12:00 PM) QID: 42268

Will the Minister for Energy (Power Division) be pleased to state:

- (a) *whether it is a fact that the input cost of imported coal power plants in the country is more than the cost of coal plants in other countries, if so, the reason thereof indicating also the benchmark of coal prices for the last three years; and*
- (b) *the details of price of coal of South Africa and international market in July, 2024 indicating also the price at which the same was imported for plants operating in the country?*

Sardar Awais Ahmad Khan Leghari: (a) The major constituents of price of coal are coal commodity price, marine freight, marine insurance, custom duties, port handling charges, handling losses, LC charges and inland freight charges. Coal commodity price is linked with international price indices i.e. API-4 for South African coal, ICI-3 for Indonesian coal, ICI-5 for lignite coal from Indonesia. The details of delivered price of coal imported since inception along with relevant benchmark index prices are appended as (**Annex-I**).

No data is available with NEPRA for comparison of input cost of coal with other countries. However, the Price is benchmarked with international indices. Copies of latest indices are at (**Annex-II**).

(b) The July 2024 benchmark index price for South African Coal was \$ 107.86/ton for 6000 kCal/KG and Indonesian coal was \$ 71.54/ton for 4600 KCal/KG and \$ 32.96/ton for 3000 kCal/KG. It takes approximately 2/3 months to purchase coal and its consumption. IPPs submit information of purchase of coal after actual consumption for the purpose of approval of fuel cost component.

(Def.) *Question No. 39 **Senator Muhammad Aslam Abro:**
(Notice Received on 9/08/2024 at 3:21 PM) QID: 42281

Will the Minister for Energy (Power Division) be pleased to state:

- (a) *the details of authorized workshops for repair and maintenance functioning under SEPCO indicating also the criteria devised for the shortlisting, authorization and performance evaluation of the same; and*
- (b) *the number of transformers belonging to SEPCO indicating also the number of those repaired by the said authorized workshops and these permanently out of order out of the same during the last five years?*

Sardar Awais Ahmad Khan Leghari: (a) • SEPCO has engaged exclusively Transformer Reclamation (Distribution) Workshop. Pakistan WAPDA Foundation (PWF), Sukkur for distribution transformers reclamation since 2010 under contract agreement between HESCO & PWF Lahore and same has been continued by SEPCO Company since its bifurcation from HESCO.

- Transformer Reclamation (Distribution) Workshop PWF, Sukkur has been WAPDA owned formation and trusted source for SEPCO with a previous proven track record in dealing high quality services to SEPCO and other DISCOs i.e HESCO, QESCO, MEPCO & GENCO (Lakhra, Jamshoro & Guddu).

Performance:

- The overall performance of Transformer Reclamation (Distribution) Workshop PWF has been satisfactory with the reclamation

of distribution transformers being carried out in the accordance with the NTDC / WAPDA Specification.

Quality Assurance & Testing:

- SEPCO Inspection officers conduct regular testing to ensure compliance with testing protocols & quality assurance.

Warranty:

- Transformer Reclamation (Distribution) Workshop PWF Sukkur offers 18 Months warranty for reclaimed transformers ensuring prompt replacement during the warranty period.
- Based on the above, evaluation of performance of Transformer Reclamation (Distribution) Workshop PWF Sukkur is carried out in repairing of distribution transformers focusing on effectiveness, efficiency, quality, safety & customer satisfaction.

(b) The requisite information regarding transformers repaired by the PWF Workshop including their burning ratio and permanent failure rate / permanent out of order over the last five years is tabulated as under:

Period	2019 to 2020	2020 to 2021	2021 to 2022	2022 to 2023	2023 to 2024	Total
No. of transformers Repaired during the period	663	620	823	661	637	3,404
No. of transformers damaged during warranty period	15	17	22	18	16	88
No. of transformers permanently out of order	0	0	5	12	21	38

(Notice Received on 9/08/2024 at 3:22 PM) QID: 42279

Will the Minister for Energy (Power Division) be pleased to state whether it is a fact that the 100 KV transformer installed in village Kajla, Tehsil Darband, district Mansehra is overloaded and no additional transformer of 50 KV has been installed despite its inclusion in Chain Augmentation ELR several times, if so, the reasons thereof indicating also the time by which the same will be installed along with poles?

Sardar Awais Ahmad Khan Leghari: A 100 kVA distribution transformer already exists in the Kajla area of Union Council Nikka Pani, Tehsil Darband, District Mansehra.

The distribution transformer is not overloaded and the same, is running on three phases. At present, there are only 90 Nos. single-phase connections taking supply from the said transformer.

Hence, there are no electricity issues with the existing transformer.
