(Notice Received on 6/09/2024 at 12:14 PM) QID: 42376

Will the Minister for Foreign Affairs be pleased to state:

- (a) the names, designation, grades and place of domicile of officers and officials appointed on deputation basis and absorbed in the Ministry of Foreign Affairs during the last five years;*
- (b) the criteria devised by the Government to send officers/ officials of the Ministry at Pakistani Missions Abroad; and*
- (c) whether it is a fact that a number of officers / officials appointed on deputation basis in the Ministry during the said period have also been posted at foreign mission, if so, the details and reasons thereof?*

Mr. Mohammad Ishaq Dar: (a) The list of officials who were transferred from other Ministries/ Divisions on deputation basis and appointed by transfer (absorbed) in the Ministry of Foreign Affairs during the last five years is placed at **Annex-I**.

The officers who join the Ministry of Foreign Affairs on deputation basis are not absorbed in the Ministry. They are repatriated to their parent Ministry/ Division upon completion of the deputation period.

(b) The foreign posting of the Ministry's officers is governed by the Posting Policy-2015. Major consideration for posting abroad includes functional requirement of the Mission, as well as skills, proficiency, and expertise of officers.

As regards officials of the Ministry, their posting abroad is governed under Posting Policy-2016, devised by the Ministry of Foreign affairs, whereby the posting of officials to Missions abroad is decided on the basis of certain considerations including seniority, stay at Headquarters, previous posting, and family circumstances.

(c) Ministry considers the cases of officers and officials, on deputation, for posting to Pakistan Missions abroad as per Ministry's devised policy. The foreign posting of officers and officials, on

deputation, is done to meet the shortage in Pakistan Missions abroad. Only those officers and officials who possess the requisite qualification/technical skills and experience of the post are considered for posting abroad in the public interest. (Def.) *Question No. 25 **Senator Danesh Kumar:**
(Notice Received on 6/09/2024 at 12:15 PM) QID: 42377

Will the Minister for Foreign Affairs be pleased to state whether it is fact that the directions of Hon'ble Supreme Court of Pakistan in Criminal Original Petition No.89/2011 (2013SCMR1752) and Civil Review Petition No. 193 of 2013 (2015SCMR456) regarding repatriation of employees appointed on deputation are not being observed by the Ministry of Foreign Affairs, if so, the reasons thereof?

Mr. Mohammad Ishaq Dar: Under the Civil Servants Appointment, Promotion & Transfer (APT) Rules. 1973, three modes of appointment have been provided, that is, by promotion, transfer and initial appointment. The APT Rules were amended in 2007, and Rule 20A was inserted to provide for appointment of a deputationist, and therefore the procedure and instructions provided there under are required to be followed for the purpose of appointment of a deputationist. Ministry utilizes the services of officers and officials who possess the requisite qualification and experience of the post concerned, for an initial period of three years. Ministry has observed the government instructions in letter and spirit.

(Notice Received on 19/09/2024 at 10:38 AM) QID: 42417

Will the Minister for Federal Education and Professional Training be pleased to state:

- (a) *the details of the HEC recognized Universities in the country that have made internships mandatory for the students in order to complete their 4 years' BS degree programs;*
- (b) *whether HEC has formulated any policy guidelines for these universities to regulate the said internships in order to assist the students in finding the right institutions for completing internships, if so its details; and*
- (c) *whether any quality check or monitoring mechanism has been devised by HEC in order to ensure that those universities provide proper assistance to their students in finding the relevant institutions or entities for completing their internships as per university requirements, if so, the details thereof?*

Dr. Khalid Maqbool Siddiqui: (a) In accordance with HEC's Undergraduate Policy (**Annex-A**), the Internship (6-8 weeks) is a mandatory requirement to complete undergraduate (4 years BS degree). The policy is rolled out in 2023 and all Higher Education Institutions (HEIs) are required to adopt the said policy by Fall 2023 after attaining approval of their relevant statutory bodies.

(b) Yes, the Higher Education Commission (HEC) has provided guiding principles/framework for mandatory Internship to complete an undergraduate degree (4 years BS). The relevant extract of the policy is reproduced below:

Field Experience/Internship:

The field experience of six to eight weeks (preferably undertaken during semester or summer break) must be graded by a faculty member in collaboration with the supervisor in the field. This is a mandatory degree award requirement of 3 credit hours for all undergraduate/equivalent degree programs. However, for Associate Degrees, the requirement shall only be applicable where prescribed by the respective Accreditation Council, National Curriculum Review Committee or by the concerned university.

The purpose of such field experience is to provide practical exposure and professional learning experience to students in their relevant field of study. It is pertinent to mention here that HEC has only issued the policy guidelines declaring “Internship” as mandatory degree completion requirements. The execution plan of this mandatory activity is responsibility of the universities. For the purpose, the Universities are required to establish an effective Student Advisory System to ensure that the academic advice is available to every student, as and when needed, that also includes addressing the key issues faced by students related to their field experience.

(c) The revised Quality Assurance Framework of HEC envisages framework to assess the performance/quality of a university whether is there any robust systems for advising and counseling students to support their academic, personal, and career development, fostering a conducive environment for student success and well-being exists in the university or otherwise. Likewise, the internal Quality Assurance Mechanism of universities is in place in the form of “Quality Enhancement Cells (QECs)” which is mandated to ensure compliance of HEC’s policy/regulations in true spirit. In addition to above, the universities have Industry-Academia Linkages programs, job fairs and Placement Offices to provide ample opportunities to the students to secure internships or even employment in their relevant field of study.

(b) The Polio Program developed a comprehensive 12-month roadmap as part of which, all Programmatic components underwent a reset phase to address underlying gaps and achieve eradication level performance in all areas including Balochistan and South KP. Key steps taken include:

- Development and implementation of district and campaign improvement plans, focusing on low-performing UCs to address operational gaps and optimize performance.
- Optimization of operational processes including microplanning, team selection, and training.
- Capacity building of frontline workers and deployment of culturally and language appropriate Polio teams during campaigns.
- Strengthening of supervision and monitoring.
- Relocation of FIR to high-risk areas deploying the best staff to the most challenging regions.
- Optimization of evening review meetings during campaigns to address issues in real time.

- Consultative workshops with all key Divisions of Provinces including Balochistan and South KR.
- Regular campaign reviews at all levels to maintain consistent campaign quality.
- Digitization of still-missed children to track them for vaccination.
- In Balochistan, the staggering of campaigns was addressed.

(c) The Ministry of NHR&C has taken comprehensive steps to establish synergy between the Polio and EPI Programs. It has constituted a Technical Working Group and a National Steering Committee to strengthen the synergy between the two Programs. A joint integrated plan is being developed by the Polio and EPI Programs to work together in the highest-risk areas and establish coordination and collaboration in operations, surveillance communication, and monitoring.
