"This House is of the opinion that while, it is imperative to embrace opportunities of the 21st century brought about by the CPEC, it is equally important to safeguard the ownership and inherent rights of the people of Gwadar.

Keeping the development and protection of rights of the people of Gwadar in view, this House recommends that the Government should:

- (i) take effective steps to protect and promote the rights of local fishermen and to provide them alternate sources of income under the CPEC in case they lose their livelihood as a result of any project of CPEC;
- (ii) take steps for provision of vocational and other training to the local people of Gwadar in order to bring them up to the requirements of the modern times and to enable them to cope with the challenges and opportunities to be brought by the CPEC;
- (iii) coordinate with the Provincial Government of Balochistan to promote education in the area under the umbrella of CPEC;
- (iv) take necessary measures to ensure that local people are given preference in skilled labour force and to ensure maximum recruitment of unskilled labour force from amongst the locals in all projects of CPEC in the area;

- (v) take measures to preserve the demographic balance and ownership rights of local population of Gwadar and to make legislation, if required, to protect the same against the expected large scale migration into Gwadar in the wake of CPEC projects.”
