

### **RESOLUTION NO.83**

*“The Senate of Pakistan condemns in strongest terms Israeli aggression against the Sovereign State of Lebanon and regards this naked Israeli carnage against the civilian populations of Lebanon and Palestine as a crime against humanity wanton violation of international law and norms.*

*The Senate expresses its shock and horror on continued use of indiscriminate military and air force by Israel against civilians inflicting death and injuries on infants, children, women and men and in particular on the massacre at Qana where 60 persons including 37 disabled and innocent children were killed through barbarism unparalleled in the contemporary world. Most of civilian infrastructure of Lebanon has been destroyed. Israel is raining death and destruction with full backing and support of its allies.*

*The Senate of Pakistan expresses its profound disappointment on abysmal failure of the United Nations Security Council to condemn this attack on Lebanon and Palestine and to call for immediate cease fire.*

*The Senate recalls that the deliberate targeting of civilians is a violation of the Geneva Convention-IV, the Rome Statue of the International Criminal Court (War Crimes Article-8), Hague Regulations, Geneva Convention Protocol-I and the charter of the United Nations.*

*The Senate urges the OIC to overcome its inertia and formulate a collective and effective political and humanitarian response to the present crises.*

*The Senate warns that if the world community fails to stop these atrocities immediately, they would be violating human rights and all norms of international behaviour and be responsible for any escalation of atrocities.*

*The Senate expresses its complete solidarity with people of Palestine and Lebanon in the face of Israeli aggression.*

*The Senate calls upon the OIC, the United Nations and the international community to arrange immediate cease fire and withdrawal of Israeli forces and to strive for an early just and comprehensive solution to the Middle East conflict in accordance with the relevant United Nations Resolutions.”*
