

### **RESOLUTION NO.85**

*“The Senate expresses its serious concern and deep regret at the remarks of the Pope linking violence with our great religion of peace, Islam. This is not only contrary to facts but has hurt the feelings of the Muslim world and such statements also create unnecessary cleavages among different religions and their followers.*

*In these difficult times the Pope should contribute to inter-faith harmony in the interests of world peace and security. We urge the Vatican to review this unfortunate statement.”*
